

The screenshot shows the Visual Studio IDE with a C# program. The code is for a program that asks the user for a stanza number and then prints the corresponding stanza of the Christmas song. The code is as follows:

```
7 //que muestre la letra de la canción de la estrofa que el usuario pida.
8
9
10 int estrofa;
11 Console.WriteLine("Ingrese el número de estrofa que desea ver");
12 estrofa= int.Parse(Console.ReadLine());
13
14 string[] days = new string[12] {
15     "first", "second", "third", "fourth", "fifth", "sixth", "seventh", "eighth", "ninth",
16     "tenth", "eleventh", "twelfth",
17 };
18 string[] gifts = new string[12] {
19     "A partridge in a pear tree",
20     "Two turtle doves",
21     "Three french hens",
22     "Four calling birds",
23     "Five golden rings",
24     "Six geese a-laying",
25     "Seven swans a-swimming",
26     "Eight maids a-milking",
27     "Nine ladies dancing",
28     "Ten lords a-leaping",
29     "Eleven pipers piping",
30     "Twelve drummers drumming"
31 };
32
33 Console.WriteLine("On the " + days[estrofa - 1] + " day of Christmas, my true love gave to me");
34 int j = estrofa + 1;
35 while (j-- > 0)
36     Console.WriteLine(gifts[j]);
37 Console.WriteLine();
```

The status bar at the bottom indicates the current line is 9, column 1, with SPC and CRLF characters.

The screenshot shows the Microsoft Visual Studio Debug Console with the following output:

```
C:\> Microsoft Visual Studio Debug Console
Actividad 3
Manuel Ponce, Hannia Salazar, Diego Tobar

Ingrese el número de estrofa que desea ver
7
On the seventh day of Christmas, my true love gave to me
Eight maids a-milking
Seven swans a-swimming
Six geese a-laying
Five golden rings
Four calling birds
Three french hens
Two turtle doves
A partridge in a pear tree
```
